Fall in love with your smile this February with a Lip Enhancement! Whether it's subtle or full volume, we'll help you achieve safe, natural results. Lip filler provides definition, structure and smooths fine lines around the mouth. It also improves natural asymmetries. Adding Juvederm SKINVIVE to your Lip Enhancement hydrates the area from within for that perfect pout. We strive to keep you comfortable during your treatment. We offer topical numbing cream, cool compresses, lidocaine injections and/or nitrous oxide for added comfort. Call today for your appointment 919-521-8282.
