Halo and BBL

Before

After

Dramatic results like these are the reason we love laser season! This rejuvenation is after just one treatment of Halo and BBL. The Halo results are boosted by BBL and together they tackled the unwanted dark spots, age spots and sun damage. Halo is an ablative and non-ablative laser that also increases collagen production and diminishes fine lines and wrinkles. These results show how it evens out skin tone and texture. The combination of the two will improve firmness for healthier, smoother, more radiant skin. This is why we call it the Halo Glow! Call today for your appointment 919-521-8282.

Juvederm SKINVIVE and Voluma

Before

After

Hydrated and lifted! Two words to describe this natural, radiant rejuvenation. Meredith used a combination of Juvederm SKINVIVE and Juvederm Voluma. The Voluma added volume and structure that eliminated the accordion lines around the mouth. SKINVIVE worked to smooth fine lines, improve texture and give that dewy, youthful look. Call today for your appointment 919-521-8282.

Swinging Into Action

October is Breast Cancer Awareness month! Help us drive change with the 8th Annual Pink Ribbon Classic. New Life Aesthetics is a proud sponsor of this golf tournament benefiting the Susan G. Komen Metastatic Breast Cancer Collaborative Institute. Join us in supporting groundbreaking research and treatment for metastatic breast cancer. Nearly 30% of women initially diagnosed with early-stage breast cancer will ultimately develop metastatic breast cancer. Together we can all make a difference. Just click on the link below to donate or show your support.
