

UPNEEQ

Eye Opening Lift!

Get uplifted with Upneeq! We are excited to introduce the first FDA approved eye drops to lift the upper eye lid. This is a once daily prescription eye drop that rapidly lifts low lying lids. Don't let droopy eyelids get you down! Upneeq gives your eyes a wider, brighter appearance. It's a non-surgical solution for patients with ptosis. Sagging eyelids may lead you to appear tired. Upneeq works by stimulating an involuntary eyelid muscle, the Muller's muscle, to contract. Clients are thrilled by how quickly they see results. Call us for more information and to purchase Upneeq. 919-521-8282.

IT'S TIME TO SCHEDULE fall treatments

- BBL
- Halo
- TRL
- Subnovii

Sun exposure must be avoided 6 weeks prior to treatment, so please plan accordingly

With fall on the horizon, now is the perfect time to start scheduling your laser treatments. The summer sun often takes a toll on our skin leading to laser damage, pigment and wrinkles. New Life Aesthetics offers a wide variety of cutting-edge laser treatments that are customized to each client. It's important to avoid the sun for six weeks before and after treatments for optimum results. The fall season offers added benefits for laser treatments with the shorter, cooler days and a lower UV index. Kids are back in school, there's more time for you and it tends to be easier to avoid sun exposure. Book your laser appointments now with Meredith or Heather so you're glowing for the holidays! Call us at 919-521-8282.
