

### The Ultra Vivace Experience

Our powerful Vivace RF Microneedling is about to get an upgrade and we are excited to bring you the all new Vivace Ultra! This Radio Frequency Microneedling device now offers a more precise delivery of this skin perfecting treatment. Ultrasound technology is now included in the device for a more customizable treatment. The ultrasound works to determine the optimal needle depth for superior results. Vivace Ultra targets tone, texture and overall skin quality. The updated needle sets allow for smaller, more precise areas as well as larger areas. Vivace Ultra alleviates fine lines and wrinkles while tightening the skin. If desired, Ultra can also target fat while simultaneously tightening. There's minimal downtime and results can be seen immediately. Call us today to book your appointment 919-521-8282.
