after

Beautiful results after 2 treatments of BBL. Significant reduction in brown pigment, sun damage and age spots.

Turn back time with the power of light energy! This client's radiant skin shines after just two BBL treatments. Sun damage, age spots, dark spots and fine lines have dramatically diminished after BBL. The technology works by gently heating the upper layers of the skin and stimulating the body's natural healing response. The result is clearer, more youthful-looking skin. BBL also targets uneven skin tone, rosacea and acne. Don't forget you'll receive a complimentary Azelaic Glow skincare product when you book your BBL treatment with Amanda. A Celebration to Remember!

A huge thank you to everyone who helped us celebrate our 10th anniversary! We popped the champagne and toasted to a decade of service here in the triangle. Our guests enjoyed awesome raffles including a year of free Botox for one lucky winner. Our live demonstrations were a hit as guests watched our popular treatments in action. They learned the latest innovations in beauty and wellness. Thank you for a decade of trust and support with your aesthetic journey. We're so grateful for you!

Uniting Hearts

We believe success is measured by the positive impact we make in the lives of others. Each month New Life Aesthetics supports a non-profit organization in our area. This May, please join us in helping Families Together. Their mission is to make sure families thrive together in safe, affordable housing. Families Together assists families with children as they transition from homelessness to sustainable housing. Through advocacy and direct support, this wonderful organization provides knowledge, skills and connections to resources. This helps them establish long term success.
